

Smart Cities cont.

7) healthcare:

- remote monitoring
- connecting 911 when detecting an emergency
- hospitals being digitalized, records sharing

8) 411

- mobile apps contact govt, emergencies, kiosks

Issues not solved

- risk & return: sometimes investment may not be worth it
- large amounts of data
- right ethical principles in place
- ~~right~~ regulated ambiguities

problems created

- ML biases: unfair treatment,
- lack of transparency
- data confidentiality & breaches

[1 Story: negative effects of AI in media]
